	Examiner Tung Vo	Art Unit 2621	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 03 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-11, and 16-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kono et al. (US 2001/0005398) in view of Adolph et al. (US 6,438,318) as set forth in the previous Office Action dated 12/21/2007.

Response to Arguments

1. Applicant's arguments filed 03/19/2008 have been fully considered but they are not persuasive.

The applicant argues that "16 of fig. 7" is not a FIFO and never indicated as performing the function of FIFO.

The examiner respectfully disagrees with the applicant. It is submitted that Adolph teaches a memory (16 of fig. 7) for storing indicators (A, B, C, 16 of fig. 7) indicating images to be displayed, which is the same function as a FIFO for storing indicators indicating image to be display (130 of fig. 1 of the present invention; see [0032]), the memory (16 of fig. 7) stores the indicators in a particular order (A, B, and C order), and wherein the display engine displays the picture associated with the indicators in an order corresponding to the order that the indicators are stored in the queue (fig. 8, note updating the corresponding entry for the decoded video frame in a table with the following information items: a reference to the frame memory in which

the decoded video frame is stored, follow up information regarding the displaying status of the video frames in the frame memories). In view of the discussion above, the claimed features are unpatentable over Adolph and Kono.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
